Claim 28 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 28 it is unclear as to whether the "non-polymeric material" is the previously recited organic solvent or a third component in addition to that solvent.

Applicants argue that such material is defined in the specification, the implication being that solvents are not disclosed. However, the passage cited in the specification is not a definition, but rather a list that begins with the language "Suitable non-polymeric materials include . . . ", which is open-ended, covering any non-polymeric compound. Thus, the language may be interpreted to include the recited solvent in claim 1, raising uncertainty to the reader as to the metes and bounds of claim 28.

Claims 1-3, 14-16, 19, 29-32 are allowed. Claim 28 is rejected.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
